Get to work on
a gorgeous collection of
high-end projects—all featuring
our colorful, craftable

*fabulous
feathers!*

We've got an endless
collection of styles to
get you started.

think pink

If you're going for showy, you'll want to go for pink! Fresh, flashy and fun, it's the hue to do for a bevy of ultra-girly designs. Feather your way to fabulous hair ornaments, trendy purses, flirty masks and more. It's time to get a crush on the blush!

yellow streak

Who says that yellow is mellow? It's time to fasten your feathers to a collection of sunny designs. Try a free-flying masquerade mask—think costume shop chic or prima ballerina. Or go for glam with a pair of dramatic hook earrings.

feather me fabulous!

green scene

You want fabulous? Oh, you've got to add some green! Make a sumptuous masquerade mask (try mysterious peacock eyes on handy, pre-assembled pads) or a collection of sophisticated, one-of-a-kind accessories. It's your emerald opus, and we have everything you need to make it sing!

out of the blue

If you're going for cool and casual, go true blue. Show it at its best by pairing our feathers with an eclectic mix of coordinating findings and accessories. Try metal, ribbon, beads or acrylic paint.

« neckware niche

Organza ribbon adds a little dazzle to this one-of-a-kind necklace. Glass beads, acrylic beads and a sprinkling of gorgeous coordinating feathers complete the native-inspired design.

black out

Black isn't so basic when it comes to these fabulously feathered designs. Amp up feathers with peeks of sparkle and pops of color—we're especially fond of pairing them with pink! These imaginative projects go from elegant to casual. . . to just plain fun!

≈ ear me roar

Safari-style earrings get better with bling! We went wild and rustic to start—spotted feathers, dangled from a handy crimp end. But we finished with a flash! Findings and crystal strands available in the Jewelry Department.

≈ mask me

A masquerade mask makes perfect sense. . . when it's paired with a collection of dramatic feathers. Put together a pretty face with acrylic paint, shiny glitter, shimmering gems and more. Then, let the feathers add the flourish.

making headway

This look is all white. . . and utterly chic! The piece features half hackle plates, halved and layered on a clear hair comb (available in the Wedding Department). We added sequined rosettes to complete the design.

≈ proud as a peacock

Acrylic paint, shimmering gemstones and some artfully arranged feathers can make a marvel of a ready-to-embellish mask. Just be sure to put the peacocks at center stage!

» in a pin

This piece features a mix of shimmering feathers, mounted to a simple pin back (available in the Jewelry Department). We jazzed things up with organza ribbon rosettes and strands of dangly crystals.

» just a hair

Go green with the feathers of your choice layered on a metal hair band (available in the Jewelry Department). Ordinary hot glue will hold them in place. Quick and easy!

blue in the face

Sail away with blue spray paint and an acrylic paint pen, then add white feathers (aged with brown ink) and a showy crystal pendant.

» a good ear

Fashion your own earrings featuring assorted blue feathers and a chic metal filigree. We used crimp ends, eye pins and heavy-duty craft bonder to assemble this simple design.
