

Step-by-Step with Modern Masters

RUST FINISH | Tray

Hobby Lobby is the only store you need to visit to purchase all of the materials you need to decorate your own rustic tray. Hobby Lobby offers numerous styles and sizes of paintable trays, so it's easy to find one to suit your own home décor personality.

The Oxidizing Finish Kit includes all of the paint products needed to complete this project. Absolutely no experience is required to create the rust finish that is all the rage for home décor, indoors and out.

PRODUCTS NEEDED

- Modern Masters Rust Oxidizing Finish Kit
- Hobby Lobby Tray of your choice

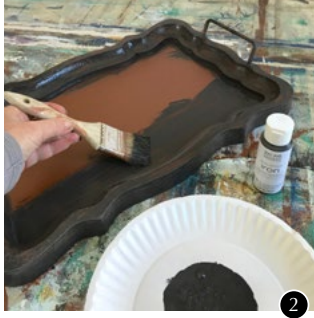

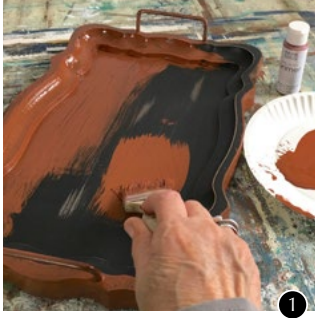

TOOLS NEEDED

- chip brushes
- cloth rags
- a palette for the paint (like a paper plate)
- surface protection materials, like old newspapers

Step-by-Step with Modern Masters

RUST FINISH | Tray

- STEP 1:** Protect surrounding surfaces from spills and overspray. Using a chip brush, prime the tray with 2 coats of Primer. Allow ½ hour between coats, then 2 hours to dry fully.
- STEP 2:** Using a clean chip brush, paint the primed surface with 2 coats of Iron Paint. Allow ½ hour to dry between coats of Iron Paint and 1 hour for final dry.
- STEP 3:** Attach the spritzer cap to the Rust Activator Solution bottle. Spray on a light coating over the entire surface. Wait 5 minutes, then spray on another light coat. Watch the gorgeous real rust magically emerge as the activated surface dries over a period of 30 to 40 minutes.

You are done!

DO NOT ALLOW CHILDREN TO COMPLETE PROJECTS ALONE. ADULT SUPERVISION REQUIRED.
