

This Easter, we're painting eggs of a different kind. The result?

SPRINGY STRANDS

with a bit of DIY charm.

egg to differ

{CREATIVE INSPIRATIONS *fr* FROM HOBBY LOBBY.}

SUPPLIES:

This project is not recommended for children under the age of 4.

- Non-stick craft sheet
- Lightweight stone clay
- Assorted acrylic paints
- Gloss glaze
- Beading cord
- Assorted beads
- Clay cutters
- Ceramic tool
- Clay roller
- Detail brushes
- Paint cup
- Pencil
- Scissors

1

Roll out clay to approx. $\frac{1}{4}$ " thickness on craft sheet. Cut out shapes as desired. (We used 2 sizes of round clay cutters, pinched at one end to form an egg shape.)

2

Using photo as a guide, poke hole through sides of clay cutouts with ceramic tool.

Let clay harden for 10-12 hours, turning over periodically to allow even drying on both sides.

3

Paint background as desired, and let dry. Sketch details with pencil, and fill in with paint. Let dry.

4

Brush on a thin layer of gloss glaze, and let dry.

5

String clay cutouts and beads onto beading cord. Tie cord ends to secure.

Put an end to the style hunt with some sunny-side-up fashion.
